

VOTE FOR Environment

CANADA IS BEING LEFT BEHIND

Canada could be a world leader in solving climate change, however we are losing out to places like Germany, England and California on the coming boom in clean energy and good-paying green jobs.

CARING FOR THE
Environment
IS A CORE CANADIAN VALUE

Stephen Harper rejects real action on climate change.
On the environment, Canadians Care. Harper does not.

To change this Canadians may need to vote differently.
If we want a truly ENVIRONMENTAL PARLIAMENT we will need to vote smart

"Unless we free ourselves from dependence on fossil fuels, we are condemning future generations to global catastrophe."

Barack Obama
US Presidential candidate

"Canadians should vote in their ridings for any party able to defeat Tory candidates."

Elizabeth May
Green Party Leader

"Alice Klein and Kevin Grandia deserve kudos for [voteforenvironment.ca] which should be promoted far and wide-but especially in the 63 ridings where "voting smart" could defeat the most dangerous prime minister the country has ever faced."

Murray Dobbin
Rabble Sept 25 '08

"We can't afford not to go green. The era of cheap oil is well and truly over."

David Cameron
UK Conservative Party Leader

BY VOTING SMART THE ENVIRONMENT WINS!

BY VOTING SMART THE ECONOMY WINS!

BY VOTING SMART THE MAJORITY WINS!

VOTE
Smart

Go to www.voteforenvironment.ca
for impartial advice on which candidate in each riding has the best chance of defeating the Conservatives

If the Election were held today:

If we split our votes:

Conservative	130
Liberal	83
NDP	41
Green	0
Bloc	52
IND	2

If we vote smart:

Conservative	75
Liberal	123
NDP	52
Green	1
Bloc	55
IND	2
